About US

MEDIQUE IMPEX (located in Sialkot) is a Manufacturer and Exporter of Surgical Instruments, Dental Instruments, Manicure Instruments, Pedicure Instruments, Barber Scissors, Veterinary Instruments & Ophthalmic Instruments.

What makes us different?

MEDIQUE IMPEX is using high quality stainless steel for manufacturing Surgical & Dental Instruments which makes the instruments more reliable and defect free. Each instrument comes with our logo and is CE marked. The key to our success is our quality assurance and exceptional customer service. Our Company is committed to provide quality products to ensure customer satisfaction.

Best Price

You will surely be surprised to see our prices. We compare our prices with our competitors on regular basis and guarantee to provide you premium quality instruments at the prices which are unbelievable. Shop with us and expect to pay much less for the best quality instruments.

The Costumer comes first

At MEDIQUE IMPEX, we are customer focused and determine the pertinence of each and every action we undertake. Our aim is to enable our clients to stand out from the crowd in their own market, by offering them an optimized development platform. All the credit goes to our expert team, steadfast processes and excellent service. We are developing the best solutions to suit our client's individual needs.

NEEDLEHOLDERS

NEEDLEHOLDERS, TUNGSTEN CARBIDE

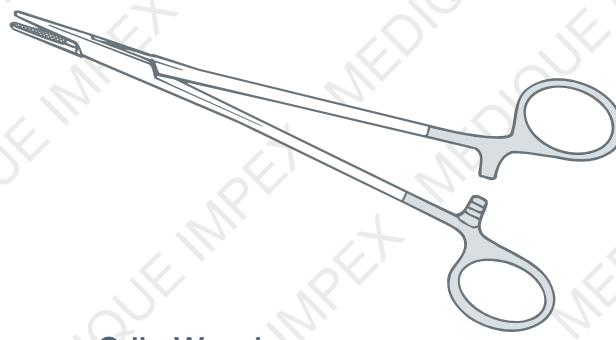

The needleholders shown on pages 23-25 have jaws made from tungsten carbide, which is the hardest and longest lasting material used in surgical instruments. The configuration of the jaws gives the best possible grip, and the gold bows allow clear and positive identification in the operating theatre.

In the event of accidental damage, repairs can be made quickly and economically.

HARD EDGE SCISSORS

The Hard Edge scissors shown on pages 47-50 are made from a special alloy which guarantees long life however frequently the scissors are used, together with a smooth accurate and consistent cutting action.

The extreme hardness results in less frequent sharpening and so minimises the time "out of service" from the operating theatre. (Should the scissors ever need sharpening it is recommended that they are only re-sharpened by the manufacturers who are familiar with the specialist techniques involved in the design.)

Gold plated finger rings allow clear and positive identification.

SCISSORS, ULTRA-CUTTING

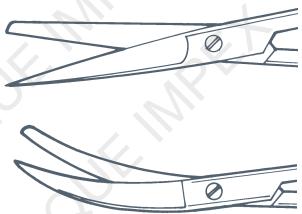

The Ultracut Scissors shown on pages 50 and 51 are designed to give an effortless cutting action through the full length of the blade.

The bottom blades are ground to a razor edge suitable for all materials from fine tissue to coarse bandages.

Cleaning, Maintenance & Sterilization of surgical instruments

Reinigung, Wartung und Sterilisation

SHARPEN - LUBRICATE

India # 6 100 x 45 mm
Medium grit 4 x 1.8 in

Arkansas # 6A
Fine texture

DB-3 **DB-6A**

Wedge Stones

They combine flat surfaces with rounded edges to manually sharpen internal parts (straight and curved edges) of curettes and scalers.

Arkansas: for routine sharpening and finishing.

India: for sharpening of excessively dull instruments or those requiring recontouring.

Arkansas # 299
Ø 8 x 90 mm
Ø 0.3 x 3.5 in

Arkansas # 4
100 x 25 x 12 mm
4 x 1 x 0.5 in

DB-299

Conical Stone

A flat and rectangular stone used to sharpen all cutting parts of surgical instruments.
Necessary in routine sharpening and finishing of edge and toe of an instrument.

Arkansas # 8
100 x 50 x 13 mm
4 x 2 x 0.5 in

DB-96

Flat Stone

A flat and rectangular stone used to sharpen all cutting parts of scissors, osteotomes, gouges, rongeurs, etc. (in areas that otherwise cannot be reached).
(whenever necessary).

DB-OL

Lubricating and Sharpening Oil

Ceramic
76 x 25 x 6 mm
3 x 1 x 1/4 in

DB-71

Ceramic Stone

Ceramic stones are valued for their durability and the very keen edge they give in the finer grits. Will never pit or groove. Used for routine sharpening procedures. Autoclave safe.

Ceramic: use only dry.
(Do not use with oil,
water or lubricants)

Arkansas: a natural stone extracted from the Arkansas mountains.

India: a synthetic stone quarried from the finest Ozark novaculite-silicon quartz-deposits.

RINSE AND CLEAN

CLEANLACT | Detergent Milk

Special milk for surgical instruments. Anticorrosive, bacteriostatic and lubricating action on all surgical instruments. Extends your instrument's lifetime. It guarantees perfect maintenance by eliminating eventual stains, halos and browning due to sterilization, disinfection and washing with tap water. Must be applied periodically, diluted or concentrated. (see special instructions on packaging)

DB-1L
1000 cc
34 oz

Brushes | Autoclavable

Special brushes to clean surgical instruments.

Used to remove eventual residue, organic or not, from all surgical instruments, in particular in angled, hinged and knurled parts, without damaging instrument surface.

Must be applied every time, for regular cleaning of all instrumentation and in the event that an instrument is exposed for an extended period to air before being immersed in the cleaning solution.

DB-12 175 mm
7 in **DB-11** 155 mm
6 in

Special Rubber for metal

50 x 40 x 20 mm / 2 x 1.6 x 0.8 in

An abrasive eraser specially designed for surgical instruments to remove stains, halos or persistent burnishing from all surgical instruments without damaging the instrument surface.

Necessary when routine cleaning does not remove all stains.

DB-08 Coarse **DB-07** Fine

TESTING

Teflon Testing Stick

Ø 8 x 100 mm / Ø 0.3 x 3.5 in
A hard plastic stick used to test the blade of an instrument to determine the sharpness of an instrument.

Must be used ALWAYS. If the blade of the instrument runs smoothly over the plastic stick, then it is blunt. A sharp instrument will grab into the stick and removes small fragments of the plastic.
